DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fisher et al (U. S. Patent 6,911,254 B2) in view of Kondo (U. S. Patent 6,579,608 B1).

Fisher et al disclose a multilayer interlayer comprising polyvinyl butyral layer containing heat ray shielding particles sandwiched between encapsulation layers. The encapsulation layers can be dyed or pigmented (Abstract, col. 4, lines 25-35, and col. 5, lines 24-32). Fisher et al disclose a glass laminate made with the interlayer (Examples). Fisher et al fail to disclose addition of ultraviolet absorbing layer.

Kondo discloses a multilayer interlayer comprising a layer containing ultraviolet ray absorbing agent.

Therefore it would have been obvious to a person of ordinary skill in the art at the time of this invention made to utilize disclosure of Kondo in the invention of Fisher et al to add ultraviolet ray absorbing agent to one of the encapsulating layer to protect interior upholstery of automobile from ultraviolet light.

No claims are allowed.
